Flynt Group Protection Course Approved for Missouri, Kansas and Nebraska

Kansas City, MO – March 8, 2007 – The Flynt Group, Inc., announced today that it has been approved as a registered provider of personal protection firearms training for the states of Missouri, Kansas and Nebraska. While Flynt Group provides advanced tactical firearms training anywhere in the United States or overseas, residents of Missouri, Kansas and Nebraska are eligible to apply for concealed carry privileges valid in dozens of states following completion of a Flynt Group course.

“Many of our clients’ executives travel internationally,” said Flynt Group’s CEO, Dr. Bill Flynt. “We provide advanced personal security training to equip them with passive and active measures to reduce their risk and increase their awareness of threats. A client’s senior executive received death threats from a former employee. The client requested we provide individually-tailored training for the individual and his spouse, including advanced training with firearms. This training is a logical extension of our line of service for executives traveling overseas, and we have had several clients since receive specialized training keyed to their executives’ specific needs.”
