Transit Authority, City of Omaha Retains Flynt Group

Kansas City, MO – January 10, 2006 – The Flynt Group, Inc., announced today that Omaha’s Transit Authority has selected Flynt Group to conduct a Threat and Vulnerability Assessment and create an Emergency Operations Plan. The project is funded by the US Department of Homeland Security’s Urban Area Security Initiative program.

The Transit Authority operates the public transportation infrastructure of the greater metropolitan regions of Omaha, Nebraska and Council Bluffs, Iowa, as well as surrounding communities (<http://www.metroareatransit.com/>).

Flynt Group’s President, Dr. Bill Flynt, LTC(R) stated “We are delighted to have been chosen to support this important project to protect this vital system. As the Madrid and London bombings made clear, the health of a large city’s economy and the well-being of its communities depend on its transportation infrastructure. We have also recently seen in the wake of Hurricanes Katrina and Rita that the transportation infrastructure is essential for effective response during a catastrophe. We are honored to have been selected over several firms competing nationally, and we look forward to serving the Transit Authority and the City of Omaha.”
